

KENYA BUREAU OF STANDARDS

ADOPTION PROPOSAL

Document Type:	Adoption proposal	
Dates:	Circulation date	Closing date
	06-02-2020	06-03-2020
TC Secretary	This form shall be filled, signed and returned to Kenya Bureau of Standards for the attention of SAMUEL KIBOGO (kibogos@kebs.org)	

The Kenya Bureau of Standards intends to adopt the following International Standards as detailed here below:

1. Number: ISO 14005:2019

Title: Environmental management systems — Guidelines for a flexible approach to phased implementation

Scope: This document gives guidelines for a phased approach to establish, implement, maintain and improve an environmental management system (EMS) that organizations, including small and medium-sized enterprises (SMEs), can adopt to enhance their environmental performance.

The phased approach provides flexibility that allows organizations to develop their EMS at their own pace, over a number of phases, according to their own circumstances. Each phase consists of six consecutive stages.

This document is applicable to any organization regardless of their current environmental performance, the nature of the activities undertaken or the locations at which they occur.

The phased approach enables an organization to develop a system that ultimately satisfies the requirements of ISO 14001.

The guidance does not cover those elements of specific systems that go beyond ISO 14001 and it is not intended to provide interpretations of the requirements of ISO 14001.

Number: ISO 14024:2018

Title: Environmental labels and declarations — Type I environmental labelling — Principles and procedures

Scope: This document establishes the principles and procedures for developing Type I environmental labelling programmes, including the selection of product categories, product environmental criteria and product function characteristics, and for assessing and demonstrating compliance. This document also establishes the certification procedures for awarding the label.

Number: ISO 14033:2019

Title: Environmental management — Quantitative environmental information — Guidelines and examples

Scope: This document gives guidelines for the systematic and methodical acquisition and review of quantitative environmental information and data about systems. It supports the application of standards and reports on environmental management.

This document gives guidelines for organizations on the general principles, policies, strategies and activities necessary to obtain quantitative environmental information for internal and/or external purposes. Such purposes can be, for example, to establish inventory routines and support decision making related to environmental policies and strategies, aimed in particular at comparing quantitative environmental information. The information is related to organizations, activities, facilities, technologies and products.

This document addresses issues related to defining, collecting, processing, interpreting and presenting quantitative environmental information. It provides guidelines on how to establish accuracy, verifiability and reliability for the intended use. It uses proven and well-established approaches for the preparation of information adapted to the specific needs of environmental management.

This document is applicable to all organizations, regardless of their size, type, location, structure, activities, products, level of development and whether or not they have an environmental management system in place.

NOTE 1 Quantitative information specifically addresses quantification of environmental performance in the form of environmental performance indicators in accordance with ISO 14031.

NOTE 2 Quantitative information also addresses quantification of risk for risk management purposes. This document supplements the contents of other International Standards on environmental management.

We are therefore seeking views from potential users in respect of the same. The Standard is available at the Kenya Bureau of Standards Information Centre. Please tick and fill your preference of the listed option. (If the spaces provided are not enough, please attach a separate sheet of paper).

Adoption acceptable as presented

.....

Adoption proposal not acceptable because of the reason(s) below

.....

Our Recommendations are as follows

.....

Name and Signature (of respondent):

Position (of respondent):

On behalf of:.....(Name of organization)

Date.....

NOTE: Absence of any reply or comments shall be deemed to be an acceptance of the proposal for adoption and **shall constitute an approval vote.**
