

Dr. Francis Xavier Ochieng PhD, M.Sc, B.Sc, CEMI, CMVP**Address:** P. O. Box 7764-00200, Nairobi, Kenya**Tel:** Kenya: +254 714 693299**Email:** xvfrank@outlook.comxavier@gmail.com**1. Key Expertise & Research Interests:**

- Renewable Energy Technologies
 - i. Energy Mobility and Energy Storage (Electric vehicles)
 - ii. Energy Meteorology & Energy modelling
 - iii. Solar PV, Geothermal, Biofuels, Wind and Hydro Energy Technologies
 - iv. Project planning, management and energy econometrics.
 - v. Big data analytics in climate and energy-related aspects
 - vi. Project management

2. Languages [1 – Native fluency i.e. excellent, 5 - basic]:

Language	Speaking	Reading	Writing
English	1	1	1
Swahili	1	1	1
German	3	3	3

3. Research Competencies in Energy Technology:

- SPSS, MATLAB, and Partial Least Squares Structural Equation Modelling (PLS-SEM), R and Python
- Energy planning tools – LEAP, WASP; Other energy tools: EnergyPlus, WASP, WindPro,

4. Recognition, awards and honours (Awards total USD 137,396 i.e. KES 10,509,050)

- ✓ 2014 – 2018 – University of Nottingham, IDIC energy technologies scholarship (GBP 31,000 / RMB 372,284)
- ✓ 2007 – 2009 – German Academic Exchange Services (DAAD) (GBP 46,750 / RMB 407,290)
- ✓ 2005.11 – UNIDO and India's MNES for the SHP training / workshop (GBP 4,000 / RMB 31,000)
- ✓ 2004 – 2005 – International Capacity Building and Development (InWEnt) – now part of GIZ (GBP 9,800 / RMB 87,100)
- ✓ 2001 – 2002 – German Academic Exchange Services (DAAD) (GBP 12,000 / RMB 105,000)
- ✓ 1996 – 1999 – Bursary from Higher Education Loans Board, Kenya and Rattansi Educational Fund / Trust (GBP 500 / RMB 4,400)

5. Membership / Affiliations in Professional organizations / Associations

S/No.	Name of Society / Professional organization / Professional certification	Membership / Registration Number (Or member since)
1	Kenya Engineering Technology Registration Board (KETRB)	2022
2	Institute of Engineering Technologists and Technicians (IET-K)	6420
3	Certified Lead Expert in Environmental and Social Impact Assessment (ESIA)	2388
4	Kenya Renewable Energy Association (KEREa)	KM-67
5	Association of Energy Engineers, USA - Certified energy efficiency Measurement and Verification Professional (CMVP)	2013
6	Association of Energy Engineers, USA - Certified Energy efficiency and management expert (CEMI)	2012
7	Kenya Bureau of Standards (KEBS) Technical committee member on Solar and Wind Technologies; Biomass; Hydropower	2013
8	Climate & Development Knowledge Network (CDKM)	2012

6. CV Summative Highlights

- i. Attracting of Research funding: Brought in USD 927,946 (KES 110 million) in the last 8 years (~ KES 13.75 million per annum). Currently, the pursuit of a Locust radar annihilation system (worth USD 500,000) is at an advanced stage (Budget review).
- ii. 105 CUE publication points from 2 Patent, 3 Book Chapters in university-level scholarly books, 10 Peer reviewed Journal articles, 3 peer-reviewed conference papers, 11 scholarly presentations at conferences/workshops/seminars and 4 consultancy/project reports
- iii. Post-graduate students supervised to graduation: 7
- iv. Peer Reviewer to 2 international Journals
- v. Teaching and researching at Research fellow and Senior research fellow level for over 14 years – evidenced by being the one in charge of the Energy section, attracting funding and engagement level of external consultancies and stakeholders
- vi. Senior international Energy consultant:- Undertaken over 30 International consultancies with organizations like World Bank, European Union (EU), African Development Bank (AfDB), IGAD, GIZ, Barefoot Power International, GIZ, ADRA Somalia, Practical Action Eastern Africa, LWF Uganda, UNEP and UNESCO [See section 10]

7. Academic qualifications and certifications

University Attended	Degree obtained	Date Obtained
University of Nottingham, UK	PhD (Energy technologies)	Oct 2014 – April 2019
University of East London [Ongoing]	M.Sc Data Science	April 2022 – Dec 2023
Carl von Ossietzky University, Germany	M.Sc. (Renewable Energy)	2001 - 2002
Kenyatta University, Kenya	B.Sc. (Appropriate Technology)	1995 - 1999

Institutions	Professional certification	Acquired on
University of Nottingham	Structural Equation Modelling (PLS-SEM & CB-SEM)	June 2017
Jomo Kenyatta University of Agriculture and Technology	Cyber Security Awareness	July 2022
Carl von Ossietzky University, Germany	Professional certification in Project Planning for Bio-digesters in Developing and Industrialised Countries	Feb 2009
Association of Energy Engineers, USA	<ul style="list-style-type: none"> Certified Energy Manager International (CEMI) – A certification in energy efficiency for equipment, buildings, innovations and built environment Certified Measurement and Verification Professional (CMVP) – a certification on undertaking energy efficiency measurements under IPMVP guidelines 	2012 - 2013
National Environmental Management Authority	Certified Lead expert on Environmental and Social Impact Assessment (ESIA) as well as energy audits (EA)	July 2013
Indian Institute of Technology, Roorkee	Professional certification in Small hydropower project development in Developing Countries	November 2005
Kassel University / InWEnt, Germany	Professional certification in Wind Turbines for Decentralized Energy Supply and Grid Connected Wind farms	2004 - 2005
SMA GmbH, Germany	Professional certification in International Management	
Regional Centre for Mapping of Resources for Development (RCMRD), Kenya	Professional certification in Electric supply for off-grid locations	March 2007
Greifzug, Germany	Application of Remote Sensing, GIS, and GPS in natural resource assessment and management	
Greifzug, Germany	Theory and practice of Safe work and Rescue at elevated places of work	October 2004

8. Employment history

Date	Location	Organisation	Job title / description
April 2006 to date	Kenya	Jomo Kenyatta University of Agriculture and Technology (JKUAT)	Lecturer / Research fellow in Energy and Environmental Technology
Feb 2018 – Nov 2020	Kenya	United States International University (USIU) – Africa	Project Coordinator – High-performance computing (HPC) & big data analytics
Feb 2002 to date	International	Various international, private and government institutions	Senior International Energy technology consultant
Dec 2005 – April 2006	Kenya	University of Nairobi, Kenya	Tutorial fellow – Energy and Technology

9. Teaching experience and Units taught (applied big data and energy technology)

Position	Location	Date	Units/modules taught, or research done
Graduate Assistant / Research Assistant	Carl von Ossietzky university, Germany	(2001-2002)	<ul style="list-style-type: none"> Simulation and modelling of Solar resource system for product development and innovation
Tutorial Fellow / Junior Research Fellow	University of Nairobi, Kenya	Dec 2005 – April 2006	<ul style="list-style-type: none"> Solar Technology introduction to computing
Adjunct academic staff	Kenyatta University, Kenya	Sept 2007 – Aug 2014	<ul style="list-style-type: none"> Wind energy technology Energy Economics National Energy Policy and Planning (a big data unit) Energy Econometrics (a Big data course)
Research fellow (Lecturer)	Jomo Kenyatta University of Agriculture and Technology, Kenya	April 2006 – September 2014	<ul style="list-style-type: none"> Wind Energy technology Solar Energy Environmental and social impact assessment Project management and planning Climate change and carbon finance Innovation and Technology Energy Economics and Planning (Big data unit) Energy Analytics (A Big Data course)
Graduate Teaching Assistant (GTA)	University of Nottingham	2014 - 2018	<ul style="list-style-type: none"> Introduction to Renewable Energy Architectural Engineering Design 2 Foundation Science Mathematics for Civil Engineers
Graduate Research Assistant (GRA)	University of Nottingham	2014 - 2019	<ul style="list-style-type: none"> Assessment of Green and sponge cities in China (A big data analytic module) Novel non-contact monitoring of suspended sands on sea waves using laser system (A big data analytic research unit)

10. Professional / consulting Work Experiences in Big Data and Energy Technology

- Undertaken over 30 major consultancies for the following organizations: World Bank, European Union (EU), African Development Bank (AfDB) / IGAD, UNEP and UNESCO
- Detailed information on the consultancies follow

PROFESSIONAL / CONSULTING WORK			
Period	Employing Organisation, Title/Position & References	Country	Project name and activities done
04/2006 to date	<p>Departmental Manager / Team leader</p> <ul style="list-style-type: none"> On-grid & off-grid technologies, policy & Regulation expert Capacity Assessment Capacity building expert <p>Energy department within the institute of energy and Environmental Technology (IET) of the Jomo Kenyatta University of Agriculture and Technology (JKUAT)</p> <p>Reference: Name: Prof Joseph Kamau Email: ngugikamau@jkuat.ac.ke</p>	Kenya	<p>Project / Programme title: Lecturer / Research Fellow in Energy</p> <ul style="list-style-type: none"> Development of Energy scenarios & Energy balance with attendant Economic & financial scenarios. These include: <ol style="list-style-type: none"> project bankability assessment including policy, regulations, electricity tariffs & feed-in-tariffs. Assessment of projects Economic [Benefit-cost ratio, Least cost planning,] & Financial [Internal rate of return (IRR); Return on Investment (RoI); payback period; Net present value (NPV), Sensitivity analysis] aspects Sustainability assessment: Stakeholder mapping and engagement Curriculum development for on-grid and off-grid energy systems Trained over 500 professionals from Government & Private Sector on on-grid & off-grid Renewable Energy technologies and their enabling environment.

PROFESSIONAL / CONSULTING WORK			
Period	Employing Organisation, Title/Position & References	Country	Project name and activities done
			<ul style="list-style-type: none"> • Taking stock of the energy sector, stakeholder consultation & mapping, assessing potential gaps and opportunities and making recommendations for possible intervention and support within SDG7 • Capacity building & consulting in Climate modelling & Technologies, Renewable Energy technologies, Energy Policy & Energy Economics, Energy Economics, Environmental Impact Assessment, Energy audits/Energy Efficiency, climate change & carbon finance • Stakeholder engagements • Successfully organized over 20 national energy-based stakeholder validation workshops in Kenya and 6 other Eastern African States
12/2020 – 08/2021	Technical Team leader Mapping and inventorying of Renewable Energy Technologies and delivery models Rural Electrification and Renewable Energy Corporation (REREC) <u>Reference:</u> <u>Name:</u> Eng Ephantus M. Kamweru <u>Email:</u> ekamweru@rea.co.ke	Kenya	Project / Programme title: Baseline study on Renewable Energy in Kenya <ul style="list-style-type: none"> • Carried out a Baseline survey of Kenya's renewable energy sector • Took stock of the energy sector using EBRD 8-point indicator and World bank -ESMAP Multi-tier energy access framework • Undertook stakeholder consultation & mapping, • Assessed potential gaps and opportunities in the energy sector • Made recommendations for possible intervention and support within SDG7 • Reviewing the existing studies done on renewable energy in Kenya • Establish the renewable energy technologies readiness level in Kenya
05/2021 – 10/2021	Team leader Development of viable Energy Technologies and delivery models (ETDM) GFA Consulting Group and GIZ <u>Reference:</u> <u>Name:</u> Deborah Ayres <u>Email:</u> deborah.ayres@gfa-group.de	Ethiopia	<ul style="list-style-type: none"> • Project / Programme title: Assessment of clean cooking technologies and investment climate in Ethiopia • Identify bottlenecks in cook stove investment and analyse strategies to increase investment in energy resource potentials and clean cooking technologies • Formulate a viable intervention strategy including the selection of technology options, fuel options and enabling policy options (i.e. formulate a viable energy delivery model [EDM]) • Explore different financing models for the EDM
08/2020 – 08/2021	Subject Matter Expert (SME) Curriculum and training video development for Energy delivery models in smart grid scenario Pan Africa University Institute for Water and Energy Sciences PAUWES <u>Reference:</u> <u>Name:</u> Dr David Tsuanyo <u>Email:</u> david.tsuanyo@gesci.org	Africa	Project / Programme title: Development of graduate-level training curriculum, course book and training video for Smart grid analytics as well as Regulatory and policy framework <ul style="list-style-type: none"> • Development of training-based energy delivery model for Smart grids in Africa • Coding and practical examples implementation for smart grids
10.2020 – 02.2021	Kenya – Ethiopia Renewable Energy Resources Mapping & Prediction expert (Hydropower Advisor) *Energy technology deployment modelling assignment	Kenya	Project / Programme title: Support to Sustainable Development in Lake Turkana and its Rivers Basins: Scenarios, Rehabilitation measures and Indicator Framework

03/2003–10/2003	Team leader Project design and delivery expert under EDM United Nations Environmental Programme (UNEP) Reference: Name: Asenath Omwega,	Kenya	Project title: Data analysis in UNEP 2003 annual sustainable environmental and energy development projects review <ul style="list-style-type: none"> The key task was the acquisition of strategic parametric data for validation of the UNEP development projects in Kenya based on their log-frames and activity schedules Above involved Support the in-country programme lead in the design and delivery of a select number of initial small-scale activities and pilots Comparison of project performance against plans, identification of deviations from plans and development of corrective actions Support coordination of stakeholder follow-ups, tracking project progress and quality reporting

11. Quality teaching and learning in Big data and Energy Technology

a. Supervision of Post-graduate Students (graduated)

Year of graduation	Student	Level	Thesis / Dissertation Title
2015	Ngure, S. M.	M.Sc	Fuel Consumption model for Road distribution of Petroleum products in Kenya
2015	Akello, P. O.	M.Sc	Performance Analysis of a direct drive permanent Magnet generator for small wind energy applications
2016	Kasera, Alice Achieng	M.Sc	Design and testing of an efficient savonius Wind turbine rotor blade for low wind speed applications
2016	Abiero, David Odeyo	M.Sc	An energy approach to evaluation of carbon dioxide emissions from Kenya's Road freight transport
2017	Onchoke Ismail	M.Sc	Conversion of Rice husks into an energy source through gasification Technology
2017	Haroub, Haroub Ahmed	M.Sc.	Development of a low-cost Rotor blade for an H-Darrieus Wind turbine
2018	Ndirangu Benson	M.Sc.	Of wind turbines on Radar Systems and mitigation measures: The case of Ngong Wind farm in Kenya.

b. Supervision of M.Sc & PhD Post-graduate Students (Ongoing)

M.Sc (Energy Technology)

- Lee Alubala Okombe - Analysis of the impact of Solar Water heating Systems uptake on electricity demand
- Kennedy Gakage Kibetu – Optimum design configuration of small Savonius wind turbine through computational fluid analysis

PhD (Electrical Engineering)

- Oichoe Victor Marege – Development of Energy-based green procurement model for cement production in Kenya.

c. University Administrative posts:

- Institute of Energy and Environmental Technology of Jomo Kenyatta University of Agriculture and Technology – Head of Budget, Procurement and Work planning (2019 -2020)
- University of Nottingham, Hall tutor's leader (2018 – 2019)
- University of Nottingham Ningbo China - DANN student representative (2017 – 2019)

d. Peer reviewer of International Journals:

- Renewable & Sustainable Energy Reviews (Impact factor: 10.556)
- Journal of Wind Energy (impact factor: 3.125)

12. Community engagement and other contributions**a. Attracting research funds for Technology and innovation**

Date	Location	Amount	Organisation	Research funds outcomes
October 2021 – September 2023	Nairobi, Kenya	Kes 50 million	National Research Fund (NRF), Kenya	<ul style="list-style-type: none"> ▪ Development of a portable, non-contact locust destroying Radar (LDR) system
April 2021 - March 2022	Nairobi, Kenya	KES 2 million	AI-Africa Jica Japan Project, JKUAT	<ul style="list-style-type: none"> ▪ Category 1 Research Project ▪ An innovative integrated approach to sustainable community waste management for improved livelihoods and economic empowerment (I-2-SWam2021) ▪ Thematic 2 leader in Biogas systems
October 2020 – December 2021	Nairobi, Kenya	Kes 8 million	Rural Electrification and Renewable Energy Corporation (RREC)	<ul style="list-style-type: none"> ▪ Mapping and inventory of nationwide energy systems in Kenya
April 2020 – March 2021	Nairobi, Kenya	KES 600,000	AI-Africa Jica Japan Project, JKUAT	<ul style="list-style-type: none"> ▪ Category 3 Research Project ▪ Development of a Pay As You Go Predictive Wind resource map for productivity and resilience improvement in food, health, transport and energy sectors
2014 – 2019	UK, China	KES 4,123,000 (USD 41, 230)	University of Nottingham	<ul style="list-style-type: none"> ▪ Structural health monitoring of Wind turbines using radar
April 2011 to 2014	Kenya	KES 6,500,000 (USD 65,000)	National Council of Science and Technology, Kenya	<ul style="list-style-type: none"> ▪ Development of low wind, affordable vertical axis wind turbine
October 2011 to 2015	Kenya	KES 9,000,000 (USD 90,000)	Japan international cooperation Agency (JICA)	<ul style="list-style-type: none"> ▪ Development of an affordable horizontal axis wind turbine ▪ Development of Numerical wind resource map
October 2011 to 2015	Kenya	KES 5,000,000 (USD 50,000)	Japan International Cooperation Agency (JICA)	<ul style="list-style-type: none"> ▪ Successfully fundraised for the construction of the IEET Wind and Hydro Laboratory at JKUAT, Juja under the JICA BRIGHT project

b. Community Service and Outreach –

- University of Nottingham – Students hall Tutor
- Rimpa Seventh Day Adventist Church – Church elder in charge of Tinga Sabbath school in Kajiado county, Kenya
- Advent hill primary school – Grade 2 Parents-Teachers Association (PTA) assistant class representative
- Head of Research, the Association of Energy Engineers East Africa (AEPEA)

13. Publications**a. Book chapters in university-level scholarly books**
