

WHAT IS LIQUID OXYGEN?

A proprietary method of infusing oxygen into natural spring water without a molecular change and without the addition of any chemicals or additives.

Infused with 93% pure oxygen, we have simultaneously created an ultra purified, highly oxygenated natural spring water.

"Having been a naturopath and live blood microscopist for almost 20 years, I was extremely surprised and impressed as to clear improvements in the blood parameters analysed after drinking Kure Water."

Kure Oxygen

BENEFITS OF OXYGEN

- Increase metabolism and energy levels.
- Improve stamina and faster recovery
- Strengthen and increase joint movement
- Improve flexibility, mobility and strength
- Anti-inflammatory treatments
- Faster recovery from injury
- Cell regeneration
- Restful sleep
- Stress reduction

RECOMMENDED CONSUMPTION

It is recommended to consume 1.5 Litres to 2 Litres of Kure Oxygen daily.

NUTRITION INFO

Mineral Analysis per mg/L

| | | | | |
|--------------------|------|---------------------|-----------|------|
| Calcium (Ca) | 11.6 | Per: | 500ml | (%*) |
| Magnesium (Mg) | 5 | Energy: | 0kJ/0kcal | (0%) |
| Sodium (Na) | 15 | Fat: | 0g | (0%) |
| Potassium (K) | 1.5 | of which saturates: | 0g | (0%) |
| Iron (Fe) | <10 | Carbohydrates: | 0g | (0%) |
| Bicarbonate (HCo3) | 20 | of which sugars: | 0g | (0%) |
| Chloride (Cl) | 22 | Protein: | 0g | (0%) |
| Sulphate (So4) | <1 | Salt: | 0g | (0%) |
| Nitrate (No3) | 12.1 | | | |

PH value 6.9 - 7.6 base reaction.
